1995

The Struggle to build a Future of Hope became a dream of **Dr. Denzil Douglas** who was sworn in for the first time in 1995 as second Prime Minister of twin-island nation St Kitts and Nevis.

Soon after becoming Prime Minister, Dr. Douglas initiated the construction of the iconic **Port Zante**, which is today the centre of attraction for tourists.

Port Zante

HURRICANE GEORGES 1998 & 1999 HURRICANE LENNY

In late-September 1998, Hurricane Georges caused approximately \$458m in damages and limited GDP growth for the year and beyond.

Again in November 1999, Hurricane Lenny made its landfall in St Kitts and Nevis. Damages across the country amounted to \$41.4 million.

People of St Kitts and Nevis were shattered and left hopeless as two hurricanes back to back left thousands homeless. Dr Douglas, with his vision towards prosperity and development, came on the roads and helped every citizen to build their home. Introduced policies to help people to get back on the track so the country could stand tall again.

To provide homes, Labour Administration, under the leadership of Dr Douglas established the National Housing Corporation. Under which Labour built more than 5000 houses for the people of St Kitts and Nevis. Labour also enacted village lands act, which allowed people living on estate lands for an extended period of time to acquire those lands free of charge.

1999

In the year 1999, under the wise leadership of Labour, Brimstone Hill Fortress became UNESCO World Heritage site, which gave international recognition to the country.

Our elders are books of wisdom and experience, and it is the duty of the government to pay back for their services to the nation. Labour administration made a major increment to the pension from \$25 to \$210. Improvement in Medical benefits for seniors and the introduction of self-employee pension plans.

CONSTRUCTION OF CHURCHES

Construction of over seven new churches and improvement of the total welfare system took place under the Labour government.

Dr Denzil L Douglas introduced the world-famous scenic railways of St Kitts.

SCENIC RAILWAYS

Robert L Bradshaw International Airport

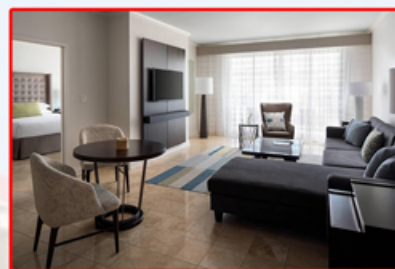

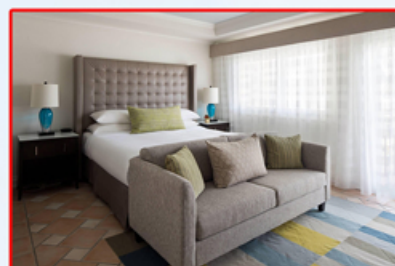

Along with all the development, Labour administration made major facelift to Robert L Bradshaw International Airport and connected St Kitts and Nevis with all across the world by bringing in international airlines including, American Airline and British Airline to the Twin Island Nation.

JW MARRIOTT

Giving a major boost to tourism, Labour signed the official construction of 5 star St Kitts Marriott hotel, which is the largest hotel in the entire OECS and employees more than 1500 people.

BLACK YEAR 2004

2004 Was the year of darkness in St Kitts and Nevis, and it was the time when dreams of sugarcane producers were shattered. It was the closure of the massive sugar industry of St Kitts and Nevis, which was the bread earner for many across the country.

Questions were raised on the economy of the country. The recession was an all-time high. It was the second ground test of Denzil Douglas after Hurricanes, but the lion-hearted Dr Douglas kept on moving forward.

2006

In the year 2006, with the revolutionary Sugar Industry Diversification Fund, Labour again brought St Kitts and Nevis back on the track of development. Dr Douglas used the Citizenship by Investment Programme wisely and successfully brought millions of dollars investment into the country.

Due to Labour administration, St Kitts and Nevis now proudly boast state of the art hotels, hospitals, educational institutions, health infrastructure and housing.

St Kitts and Nevis is leading in the hotel industry because of the vision and efforts of Labour administration, along with St Kitts Marriott Hotel Labour also built Royal St Kitts, Park Hyatt, Ramada Resort, Kittitian Hill, Silver Reef, Sundance Ridge, Christophe Harbour, Embassy Suites, Half Moon Bay Villas and Ocean Terrace Inn.

Labour has always promoted business culture, and the party believes in entrepreneurship culture. Under the Labour administration, corporate tax was reduced from 40% to 35%. Not only that, the public image of the offshore and financial industry was improved on the twin-island nation.

Labour brought famous food franchises like KFC, Burger King, Dominos and Subway.

Strong, Bright, Capable, Committed and energised the Next-Gen SKN Labour Party together offers a vision of sustainable development of the nation. The achievements of Labour in the health sector are numerous.

St Kitts and Nevis Labour Party constructed the state of the art hospital, kidney unit, eye clinic, dental clinic, EMS, health training and several other facilities for better healthcare.

St Kitts and Nevis Labour party understand the significance of food and entirely believes that we must produce our own food, which lowers the burden of foreign purchases and prices of goods remains under control. With this vision, the party improved the condition of the abattoir in Basseterre and also established more stalls in the market. Not only that, the government facilitated the farmers with water at remarkably more moderate prices. Built the fisheries complex at Ponds Posture and Old Road.

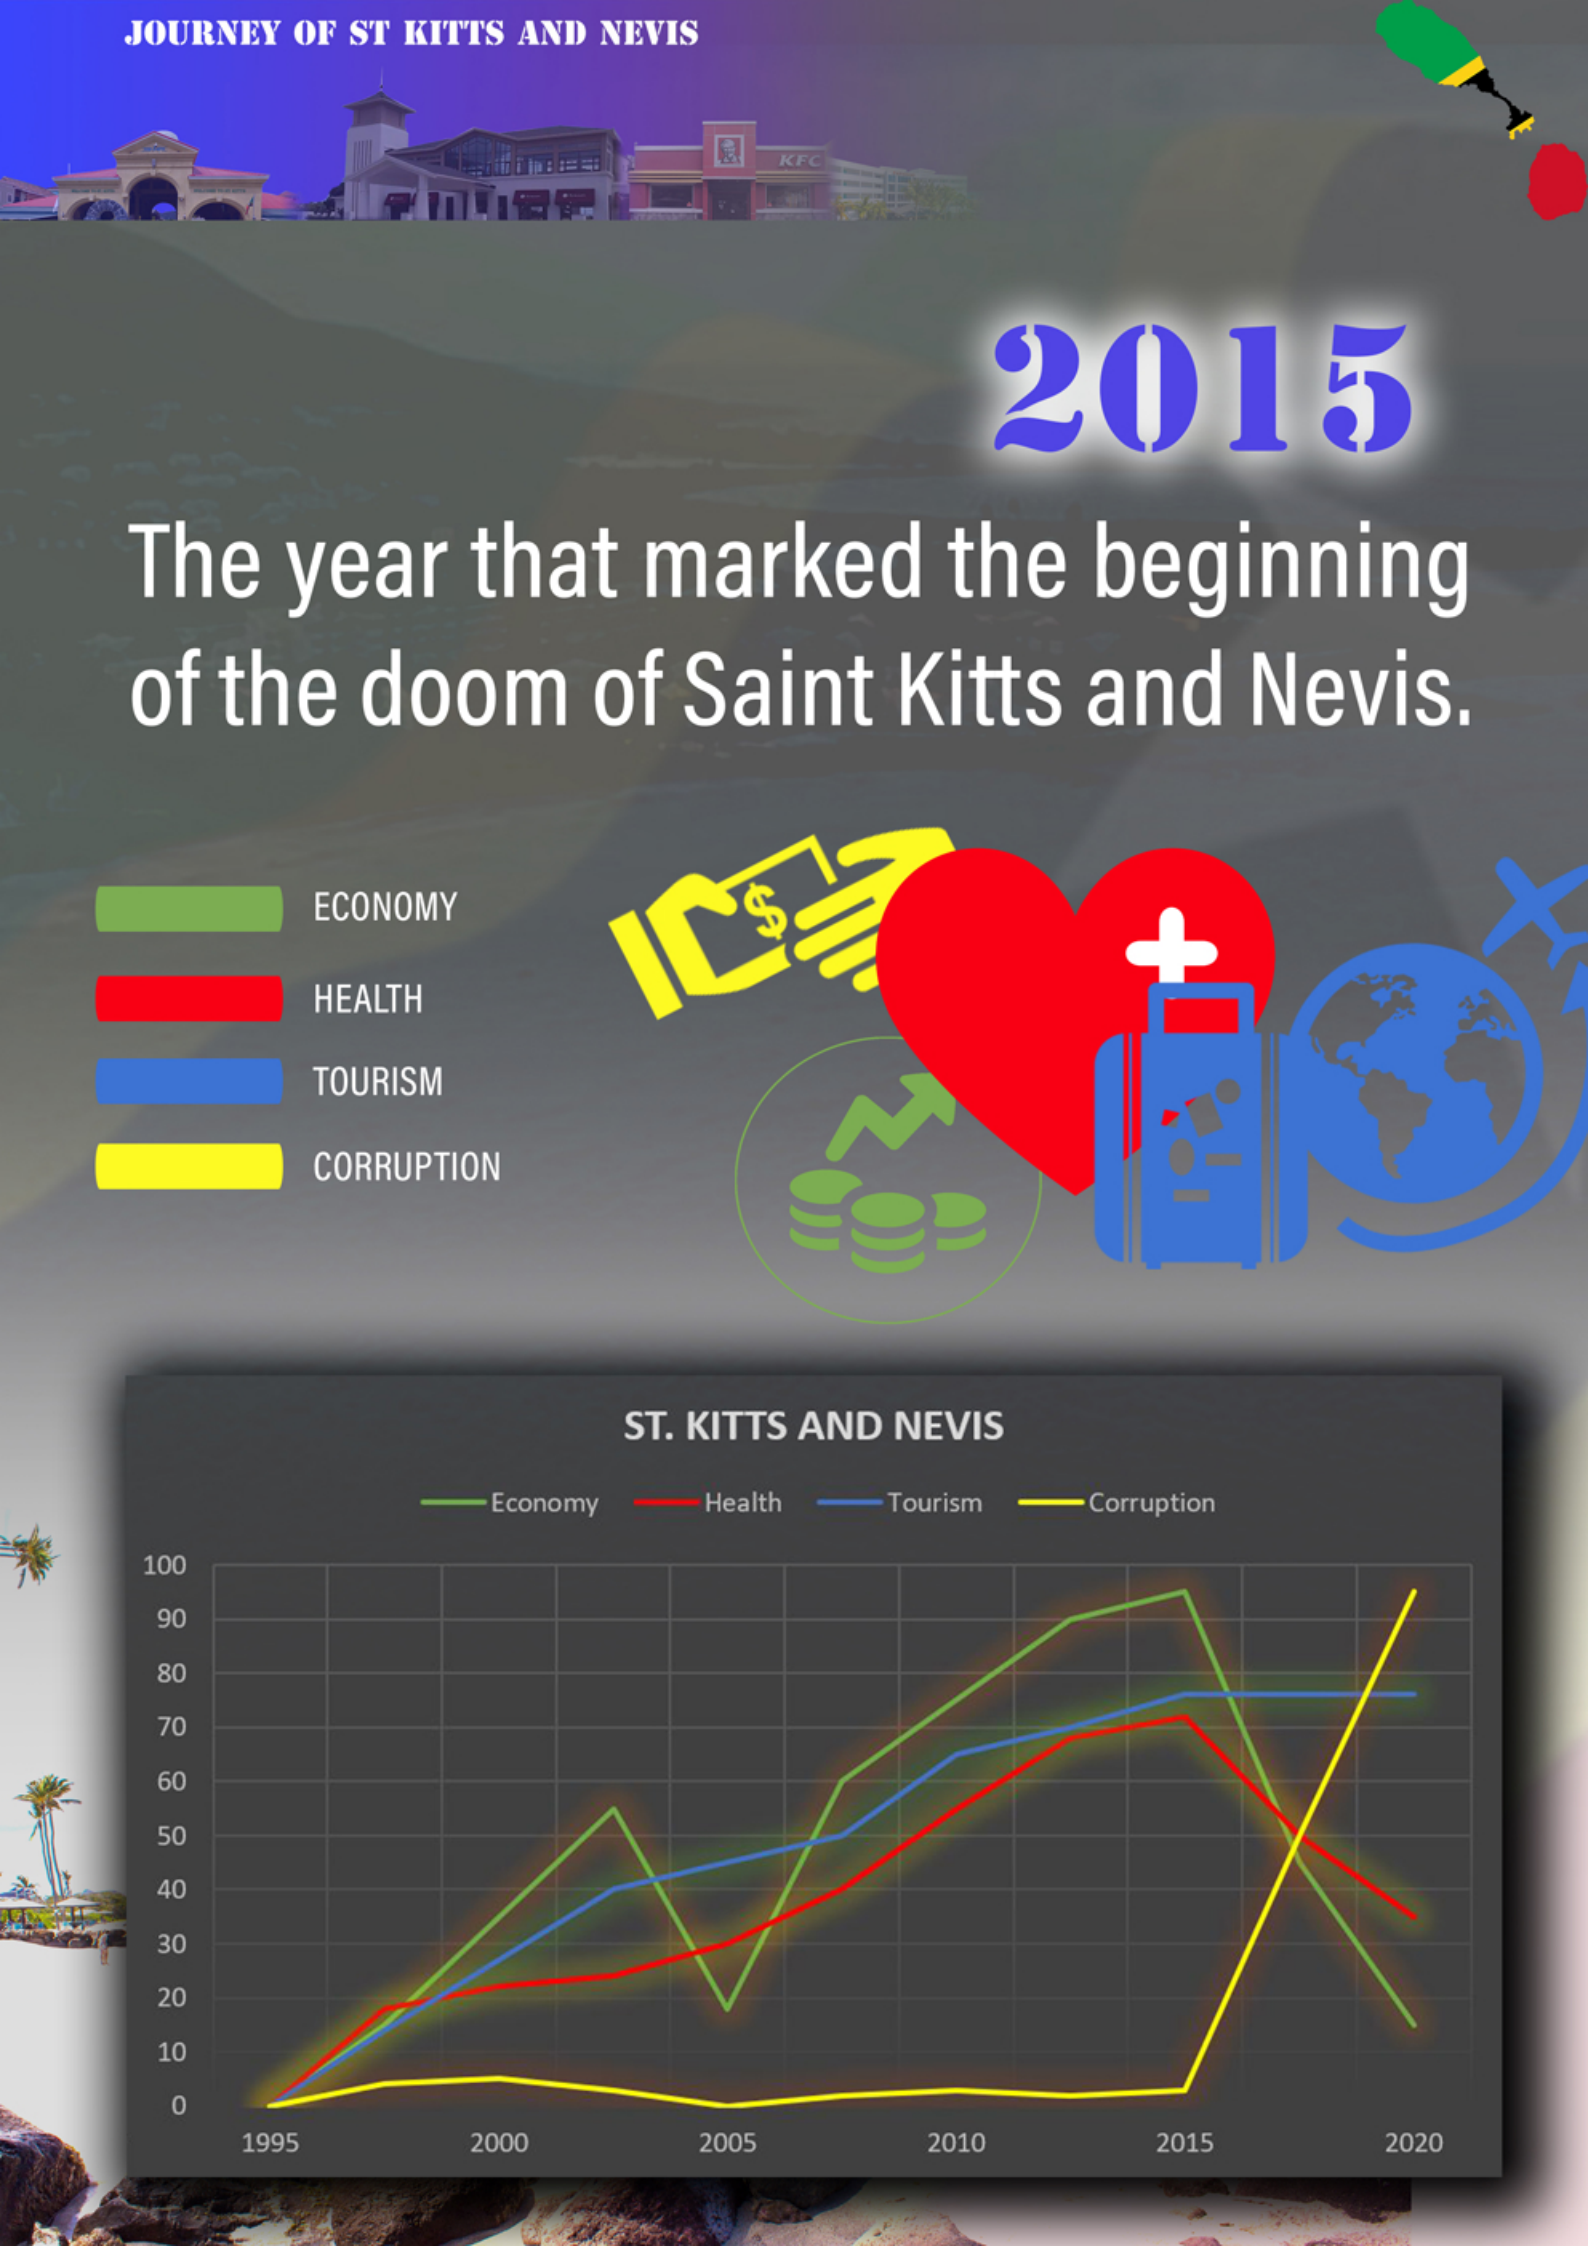

Sports is an integral part of human life with great importance to all spheres, that is why the Labour always emphasis on promoting the sports culture. Party constructed the state of the art sporting complex at warner and built athletic track and field complex in Bird Rock. Under Labour, St Kitts had an opportunity to host the ICCA World Cup.

To protect the country from threats, National Security is immensely vital, which is why St Kitts and Nevis Labour Party established Strike force which consists of Defence Force and the Police Personnel, this force patrols at night to ensure the safety of people. Also introduced Port Police and Security Guards at Deep Water Port, Port Zante and Pelican mall.

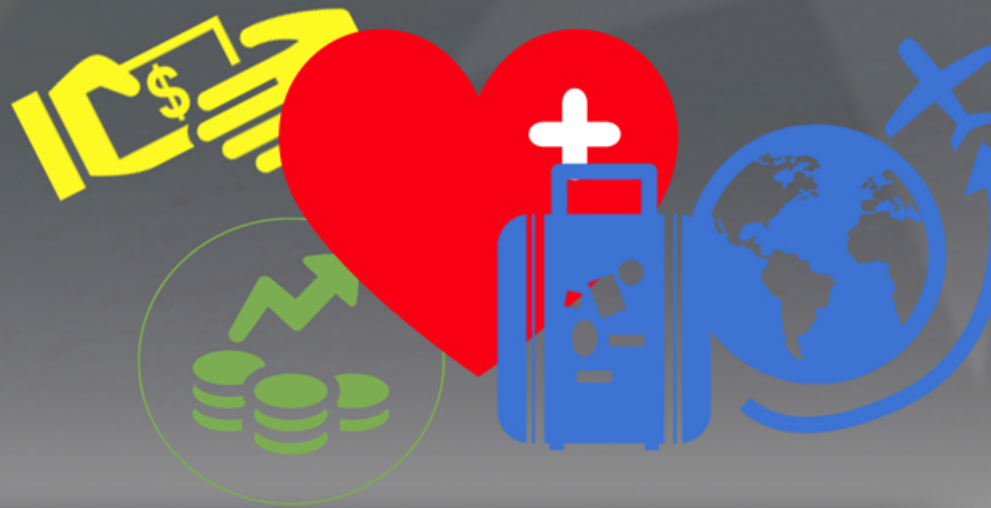

2015

The year that marked the beginning of the doom of Saint Kitts and Nevis.

ST. KITTS AND NEVIS

Economy Health Tourism Corruption

Dr Denzil L. Douglas and St Kitts and Nevis Labour Party never looked back; they kept on moving forward with the vision to develop St Kitts and Nevis. Each term of Labour Party, the twin-island nation experienced massive development; however, under the Team Unity government, only a defected piece of Port was constructed with more than \$122 million dollars. The government of Team Unity failed in keeping their promises and only promoted nepotism and corruption.

On the other hand, Team Unity not only dropped the economy of St Kitts and Nevis, but it also brought corruption, the true enemy of the economy. Now after 5 years of corruption, nepotism, negligence and betrayal to St Kitts and Nevis have deteriorated the nation to the extent as the 2020 economy stands the same as it was in 1995.

More than 6 close family members are enjoying government privileges as Prime Minister Timothy Harris developed his family only by using government power.

Around 1000 students pass out from colleges and universities in St Kitts and Nevis, but only 300 of them get employment in the twin-island nation. The rate of employment is all-time low as compared to other years.

ASSEMBLY

Dr Timothy Harris, Advocate General Vincent Byron are looting millions of dollars out of government treasury. PM Harris hire Canada based Lawyer Anthony Ross to handle official government cases, for which Anthony Ross charges millions of dollars and later three of them divide the amount with each other.

Moreover, PM Harris initiated a programme to pay criminals to leave crime. It is shocking that a law-abiding citizen is being paid less for the same work, which is being done by the person who is criminal.

Government Minister, Ian Liburd Patches is often seen breaching the security at the airport. Blatantly, he refused the protocol of the airport.

Tourism Minister, Lindsay Grant crossed all limits as he looted around half a million US dollar from CBI investor and defamed the primary money earning programme of the country.

VINCENT BYRON

Prime Minister himself can not visit United Kingdom fearing arrest by border security forces. Dr Timothy Harris had demanded a pair of shoes and a watch from British Businessman along with illegal money support in 2020 elections.

Team Unity managed to do only 1 development in all 5 years. They built a second cruise pier, which is completely useless as they did not care to check all the pros and cons of that development. Large rock around the pier is causing trouble, as Oasis-class cruise ships are unable to berth. Till date, a number of ships have refused to berth on \$122 million dollar cruise pier.

2020

It is the year 2020 and it is the time for a change, it is the time to revive the country. St Kitts and Nevis Labour Party, the leadership of Dr Denzil Douglas will again take this country towards the path of development.

Labour is the party which will bring back the dreams of Kittians and Nevisians. It is 2020 and Labour will lead St Kitts and Nevis because its all about you.

BRING BACK LABOUR

BECAUSE IT'S ALL ABOUT *You*
